## Middle School Students

Middle school is one of the most essential periods of a student's life. This time period is when students need to build on the fundamental skills that are necessary to excel in high school and college/university.

Key 2 Success's tutors will work and focus on the subject matter that is most difficult for the student. Advanced students can be taught higher level material as a preview to the courses that they will ultimately take in high school.

## Client Testimonials

*"I would highly recommend Danny as a tutor. He has been my Chemistry tutor for almost 2 years now. My high school honors chemistry teacher didn't know how to teach. I would often come home lost on how I should complete the homework assignments and study for the quizzes. Danny would break down the concepts in a much easier to digest manner that allowed me to get an A in Honors Chemistry. Currently I am taking AP chemistry and I feel really confident about the upcoming AP Exam.*

*Succinctly put, if you are struggling with Chemistry, don't waste your time with other tutors. Danny is one of the best Chemistry tutors out there."*

– NOAH K. (RANCHO PALOS VERDES, CALIFORNIA)

*Before I started class with Danny, I was getting a C in chemistry. I was so nervous before the final but luckily I was referred to him. We studied intensively for 2 weeks and I ended up getting a B for the first semester.*

*Right now, I have a solid A in chemistry and I don't think I would have been able to do that alone. Just make sure you do exactly what he tells you and I'm sure he can help you too. Thank you Danny teacher for helping me turn my grade around in Chemistry."*
